

Dear friends of **Eisen | Letunic**:

We are excited to share some recent good news.

- **Our first contract:** The Alameda County Transportation Improvement Authority has selected our firm (with Alta Planning as our subconsultant) to develop the Alameda Countywide Strategic Pedestrian Plan. This is an exciting, high-profile opportunity to showcase our firm's planning and project-management skills.
- **APA award:** The Safety Element of Oakland's General Plan—prepared by Niko—has won this year's APA Northern California Section award for "Focused Issue Planning."
- **Eisen | Letunic in the news:** John King's June 3, 2005, column in the *S.F. Chronicle* quoted Victoria on the state of smart growth planning in the Bay Area.

We thank you for your support to date, and ask that you keep us in mind for future work as we build our practice.

— *Victoria Eisen and Niko Letunic*
